

Ocean Week Canada

2024 IMPACT REPORT

Published August 2024

OCEAN WEEK CANADA

Ocean Week Canada is a nationwide festival of events promoting ocean connection and conservation, coinciding with World Ocean Day (June 8th).

Ocean Week Canada is led by the Canadian Ocean Literacy Coalition in collaboration with hundreds of partners and event hosts across the country.

Join the wave at www.oceanweek.ca

Ocean Week Canada: Celebrating Our Connection to the Ocean

Across geographies and generations, Ocean Week Canada 2024 saw 393 events take place in all provinces and territories. Throughout these events, culture, language, knowledge systems, and history were celebrated in unique ways.

The Canadian Ocean Literacy Coalition (COLC) has the honour of serving as the national lead for Ocean Week Canada. Now in its third year, the festival reached hundreds of communities in Canada and more than 6,000,000 people.

More partners than ever before (411) came together to bring Ocean Week Canada to life this year. That's a 75% increase over 2023, and a testament to the growing interest. We are inspired to see the ways regional hubs are expanding. There were 10 hubs in 2024, up from 6 in 2023, and each engaging communities in grassroots efforts to strengthen societal-ocean connections.

The Community Grants program also expanded this year. COLC distributed 49 grants totalling \$111,891 to support community events, artists and creators, and the Ocean Week Canada movement. Each one of those grantees created an experience that helps to build public knowledge of the ocean, strengthen ocean values, and inspire action to protect it.

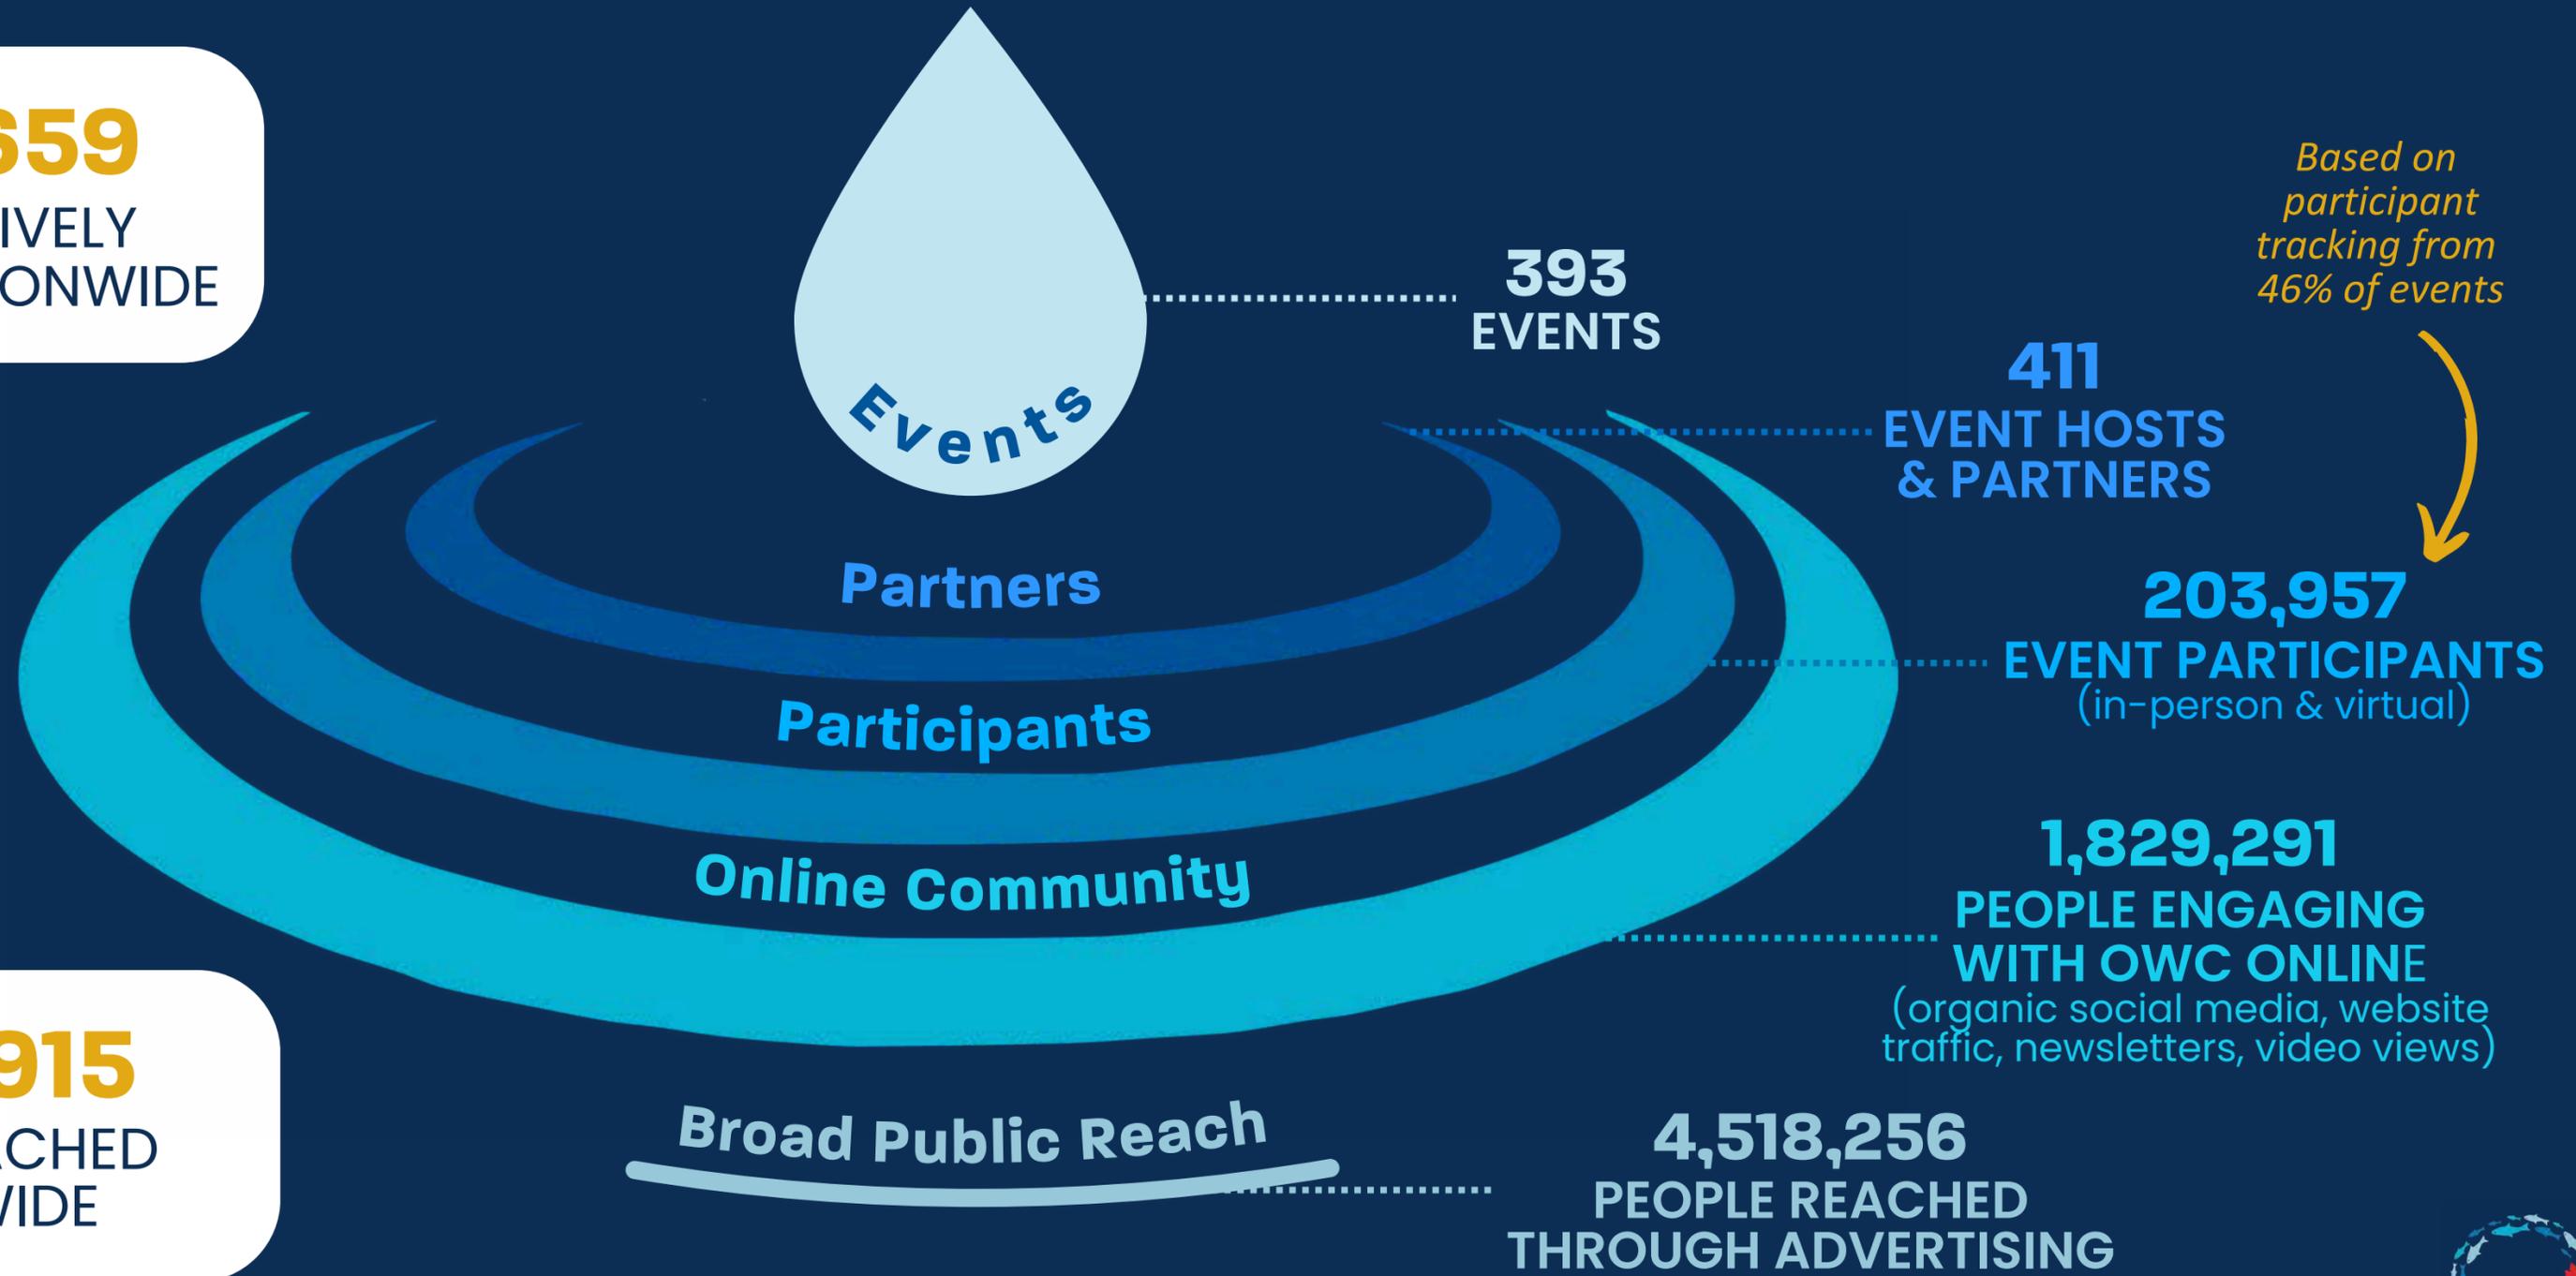

Ocean Week Canada is an essential part of collaborative efforts to restore a healthy relationship between people and the ocean. Our own health and community well-being, regardless of where we each call home, are dependent on this relationship.

Enjoy the report. Onwards together.

Diz Glithero
Executive Director, Canadian Ocean Literacy Coalition

- Nico Paula
- Red Fish Arts Studio
- Rosie Poirier
- Southern Gulf Islands Whale Sighting Network (SIMRES)
- The Unnatural Disaster Theatre Co.
- Vincent Dumoulin

Spotlight on the Featured Artists

In 2024, seven artists were featured with a focus on 'Art- Action', recognizing that art does more than describe our world. Art is a dynamic force of individual and collective makers of all kinds, helping us to imagine possible better worlds in stories about our hopes and fears for the planet, its waters, and each other.
